ASPIRE BELIEVE SUCCEED

17 December 2020

Dear Parents/Carers

We have today been advised that a member of staff has tested positive for Covid-19. Our staff ensure that they remain 2 metres away from students during lessons and I have reiterated the importance of this with them.

The member of staff who tested positive was last in school on Tuesday 15th December, but as we have had assurances that this member of staff adhered to the social distancing measures, as laid out in our Risk Assessment, there is no impact on any other member of our school community, and no further action needs to be taken by the school.

I appreciate that the rising number of cases both regionally and within school could be causing anxiety. We do continue to follow the Government guidelines for social distancing and PPE in school and hope that this will continue to keep the cases amongst staff and students minimal.

Thank you for your ongoing support.

Take care and be kind,

Yours faithfully

Mrs Dee Elliott
Headteacher
