

Course Outline:

Music GCSE is a creative and exciting subject that gives students opportunities to find out more about how music is made, to perform and collaborate with others, and to create their own compositions in a variety of different styles.

Component 1: Performing

Solo Performing

Ensemble Performing

Two pieces on an instrument of your choice (including voice).

Component 2: Composing

Two compositions, one of which must be in response to a brief set by the exam board. Each one linked to a different area of study. The second composition is a free composition for which learners set their own brief.

Component 3: Appraising

This component is assessed via a listening examination, including topics such as popular music, music for stage and screen, music from around the world, instrumental music and vocal music.

Skills/attributes developed/required:

Students should have experience of playing a musical instrument or singing. They should be practising at home regularly, and may be having individual instrument tuition. Students will develop performing, composing and appraising skills. Students who have good musicianship skills, good time management, good organisation, literacy, and creativity, work well as part of a team and as an individual will do well on this course.

Additional considerations:

We would encourage students to take part in Music extra – Curricular activities of which there are many at Nailsea School. Students would also benefit from taking part in our concerts and events; this would help them gain confidence as a performer.

Examination Information

Exam Board: Eduqas Subject code C660QS
