Pupil Premium Strategy Statement 2023-24

This statement details our school's use of pupil premium (and recovery premium) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Nailsea
Number of pupils in school (Y7-11)	942
Proportion (%) of pupil premium eligible pupils	17%
Academic year/years that our current pupil premium strategy plan covers	2021-2024
Date this statement was published	November 2023
Date on which it will be reviewed	September 2024
Statement authorised by	Dee Elliot, Headteacher
Pupil premium lead	Sophie Rutty, Assistant Headteacher
Governor / Trustee lead	Antonia Bush

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year (2023-24)	£166,335
Recovery premium funding allocation this academic year (2023-24)	£47,739
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£2,013
Total budget for this academic year (2023-24)	£216,087
If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	

The school will not be utilising the 'School Led Tuition' funding this academic year.

Statement of intent

Our aim is to support all our students, including those who are disadvantaged, to make excellent academic progress across the curriculum throughout their time at Nailsea School. We are also committed to ensuring that all our students feel included in all aspects of school life and our school community.

We will adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve.

The focus of our strategy is to support disadvantaged pupils to achieve that goal, including progress for those who are already high attainers. We will consider the unique challenges faced by pupils and carefully monitor strategies to ensure that we are supporting our students to overcome these challenges.

Our intentions are:

To ensure that all students receive quality first teaching. High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the non-disadvantaged pupils in our school.

To close the attainment gap between disadvantaged students and their peers. The approach used will be be responsive to common challenges and individual needs, rooted in robust diagnostic assessment, not assumptions about the impact of disadvantage.

To provide targeted academic and pastoral support for students who are not making the expected progress. We will ensure that the impact is monitored and reviewed.

To address non-academic barriers to attainment such as attendance, behaviour, well-being and cultural capital.

To ensure that the Pupil Premium Grant reaches the pupils who need it most.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge	Detail of challenge
number	
1	Attendance-
	Whole school absence and persistence absence has been in the lowest 20% of all schools. Over the
	last 3 years the figures indicate that attendance among disadvantaged pupils has been between 5 -
	2.6% lower than for non-disadvantaged pupils. In 2021-22, it was 5.9%. In 2022-23, this increased
	to 8.7%.

	Assessments show that absenteeism is negatively impacting disadvantaged pupils' progress across
	all key stages.
2	Academic Progress –
	Assessments, observations and discussion with students indicate that disadvantaged students generally make less academic progress than their peers by the end of KS4.
	Whilst significant progress has been made since 2019, we aim to narrow this gap further this academic year so that attainment is equally strong across all groups.
	P8 has improved from -1.6 in 2019 to -0.46 in 2023.
3	Wellbeing and emotional self-regulation skills (added 2022)
	Our assessments, discussions and observations have identified that a disproportionate amount of our disadvantaged pupils require support with emotional self–regulation. This provides a challenge when it comes to planning, monitoring and evaluating their learning. This is particularly apparent since the pandemic, resulting in a much higher safeguarding need.
	This continues to be a core reason for persistent absenteeism.
4	Financial Equality& Enrichment
	Our observations and monitoring suggest many lower attaining disadvantaged students lack opportunities to take part in enrichment activities. This financial inequality has been heightened by the pandemic and could impact on self-esteem, well-being and sense of belonging.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Increase the average attendance of PP students.	By the end of our current plan in 2023-24, we will see:
	the overall absence rate for all students being at least in line with national average, and the attendance gap between disadvantaged pupils and their non-disadvantaged peers being reduced to within 4%

	This target has been altered since 2022. This is due to, what we now are recognising as, the significant impact on attendance the pandemic has had across schools, nationally.
To reduce the gap in attainment at KS4 between PP and non-PP students.	By the end of our current plan in 2023-24, our disadvantaged cohort will: score an average Attainment 8 in the top 20% of all schools.
	gain a neutral or positive P8 score (minimum of 75% of cohort).
To reduce the gap in attainment between PP and non-PP students across all year groups.	For all disadvantaged students to make progress in line with, or above, their academic targets.
	Regular assessment in all subject areas will demonstrate improved attainment and sustained progress for our disadvantaged pupils and a smaller disparity between the scores of disadvantaged pupils and their non- disadvantaged peers. Teachers should also have recognised this improvement through engagement in lessons and book scrutiny.
Improve the emotional self - regulation skills of our disadvantaged pupils.	Observations and student attainment will show that:
	All students will develop a greater awareness of their learning and their personal strengths and weaknesses with a particular process.
	Students feel more able to regularly attend school and enegage with learning.
	Students will be aware of how they plan, monitor and evaluate their own learning, across all subjects.
	They are fewer incidents of staff support being called or students leaving lessons.
To provide PP students with the financial support to take a full and active role in school life.	To increase participation in enrichment activities both in and out of school. For all of our disadvantaged co-hort to have accessed in school enrichment provision or have been supported to engage in extra-curricular activities such as Duke of Edinburgh.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £64,827

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the **2022-23** academic year.

The focus on Teaching and Learning, CPD opportunities as well as more robust and consistent assessment processes have all continued to have a noteworthy impact on student progress. This is something we are confident will continue.

Robust and carefully researched teaching and learning strategies have been successfully implemented and we are now in a period of sustaining their impact. New software empowers staff with information and a range of strategies to support the individual student. The embedding of these strategies as well as a continued focus on building positive relationships with our students has to the continuation of the teaching approach of the strategy.

Whilst whole school attendance sits in line with the National average, missing school will put students at a disadvantage and therefore must continue to be a key part of this strategy. We compare favourably against local trends; however, these gaps are larger than we would like and continue to disadvantage those students impacted. Attendance continues to be a focus of our current plan.

We have worked to try and remove practical barriers such as the cost of specialist equipment or club subs so that all students develop a sense of belonging to our school and wider community. As more activities and enrichment opportunities are introduced, we will continue to focus on supporting all students to access these.
