

# Covid keepers – Parent Survey results

## Subject Evenings

*“Virtual parents evenings save time and stress, and allocate time fairly and promptly. If the discussion isn't long enough I feel confident that I can get in touch with teachers by email to discuss something in more depth.”*

*“I think all of these changes have worked well. I feel particularly strongly about the parents evenings - so much quicker and easier and allows the teachers to stick to time, no matter how much the parents chat! I think occasional face to face meetings to resolve particular issues might be necessary, but the Teams calls worked really really well.”*

*“I think the virtual parents evening are a more efficient use of time, especially if you have younger children in your household. I have found all teachers to be very approachable and if I've needed more time to discuss specific matters that has been easy arranged with the class teacher.”*

## Wearing PE kit on PE days

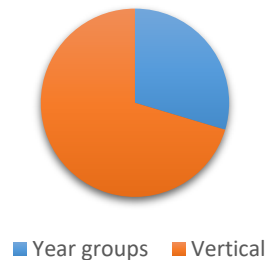

*“Before completing this survey without knowing questions I asked my sons’s for anything they would like to stay the same. The one thing they both said immediately is wearing PE kit to school on PE days.”*

*“Whilst the weather is dry, staying in PE kit is much easier, nothing gets lost and it reduces the amount of uniform needed for the week. “*

*“With no changing for PE they get more time for the lesson and exercise.”*

## Tutor group allocation

*“I think it is important to enable mixing across the school, ie across year groups as the current year 7s know nothing about other years and pupils. They can learn a lot and it will help them feel more comfortable around older children. The vertical tutor group system was one reason I chose Nailsea School as I believe it helps to build a whole-school community ethos.”*

*“I feel strongly that the vertical tutor groups were of huge benefit to the children and a real advantage of Nailsea school. Getting to know older and younger children in the school in a tutor group setting was highly beneficial for my children & vertical tutor groups really make them feel part of the whole school, not just a year group.”*

*“I think the vertical tutor groups are something very special to Nailsea school. It allows the children to mix with other pupils from different age groups, which might not happen otherwise, which I think all pupils benefit from but particularly year 7.”*
