

# How to plan and prepare for IT and Computer Science assessments

In IT and Computer Science, we **Upload, Process** and **Download** our way to successful grades, just like in all other subjects.

These listed strategies are supported by educational research, and are designed to enable you to engage with activities which result in successful outcomes.

1

upload

## Look, cover, write, check

1. Take a copy of your knowledge organiser and read it carefully
2. After reading, cover or turn over the page and get some blank paper
3. Write down as much information from memory as you can, focusing on keywords
4. Check your notes against the knowledge organiser, make corrections and add information

2

process

## Mind map

1. Create a mindmap of the key information you can remember from your knowledge organiser without looking
2. Use your knowledge organiser to add any information you have missed in a different colour

3

download

## Questions

1. Use the practice questions provided by your teacher to see how much you can remember.
2. Use your knowledge organiser to mark them and make any corrections
